

DURING THE VIRTUALARTWEEK®, THE WEEK DEDICATED TO
VIRTUAL CONTEMPORARY ART ONLINE

Make Art Gallery invites you to participate in the selections for

DINAMICA ART EXPO

INTERNATIONAL VIRTUAL GROUP EXHIBITION ONLINE

OVERVIEW AND THEME

The Virtual Art Week is the celebration of contemporary art online, featuring personal and collective exhibitions, 360 tours, and streaming on YouTube and from the metaverse. Accessible through www.virtualartweek.com, it occurs three times a year, serving as a guide to quality virtual events. "Dinamica Art Expo" is participating with an international collective exhibition, providing an immersion into the new contemporary art scene. The goal is to disseminate art and culture through innovative exhibition methods, offering an entertaining experience to spark curiosity about art and the concept of virtual exhibitions.

Dinamica Art Expo invites you to submit works for selection where sign, gesture, and material communicate to the viewer a dynamic perception, conveying movement and a strong emotional-visual impact.

The theme is not mandatory for those who wish to participate but is recommended. The technique and interpretation of the call are free. The exhibition will take place online on February 26th at 5:00 PM and will be accessible not only during the Virtual Art Week but also the following week.

The Gallery is a three-dimensional online exhibition space, accessible through a web browser on PCs, smartphones, and tablets. It is not located in the metaverse and can be explored on www.virtualartweek.com without the need for avatars or complex registrations. The exhibition provides professional curation and a digital catalog in PDF format to actively engage viewers and promote artists in the long term.
